 WIRED WRITERS OF ALBERTA SERIES

Myrna Kostash, a veteran of writing and teaching creative non-fiction, will survey her experience with the Ukrainian-Canadian experience, travel in Eastern Europe, feminism and the 1960s – among many others. Kostash will also take this opportunity to discuss her works in this session. This is the third session in the Wired Writers of Alberta Series.

RSS: Let the information find you – then pass it on!
 with *Wendy Rodgers*

[Web Conference](#)

RSS technology has been around for 10 years. Depending on where you look, it either "hasn't really caught on" or it is "the next killer app". Taking advantage of RSS is now easier than ever. Libraries can deliver RSS feeds as an information service to users, or use RSS for professional development and current awareness for staff. Attend this session to find out what RSS is, how to consume it, how to deliver it, and how it can benefit your library.

Sink or Stream: The Power of Streaming Media
 with *Susan Weber*

[Web Conference](#)

Video has the power to transform any lesson into a memorable learning experience. This session will provide a brief look at streaming media for the school and academic audience. The types of options available will be discussed, followed by a review of the process. The final goal is to provide access to video content to students and instructors, no matter where they wish to view it. Licensing and acquisitions of the content will be discussed.
